

OOCL Cold Chain Logistics

Fresh Ideas for Cool Customers

OOCL COLD CHAIN LOGISTICS DELIVERS A ONE-STOP SOLUTION FOR YOUR REFRIGERATED CARGO

Today's consumers will accept only the freshest vegetables, fruits and meat from their favorite grocery stores, supermarkets and restaurants.

Our one-stop cold chain solution guarantees that your fresh produce enjoys the perfect climate so that it arrives to your customers farm-fresh and in perfect condition.

**Use our advanced IT solutions, dedicated professionals and
superior equipment to manage your cold shipment,
anytime & anywhere**

OOCL
We take it personally

Domestic Logistics Management Services

OOCL Logistics was one of the first logistics companies to establish a comprehensive network in China, with offices, depots and facilities spread across the country. Our global office network in Europe, North America and Asia, together with our excellent equipment and dedicated staff provide you with a complete range of logistics services to take care of your cargo and add value to your business.

We have dedicated trucking operations and both bonded and non-bonded warehouses, with round-the-clock security to ensure the safety of your cargo.

OOCL Cold Chain Logistics' online data communications systems provide prompt and accurate documentation, anytime and anywhere.

Cold Chain Management for Import & Export

OOCL Cold Chain Logistics creates cutting-edge supply-chain solutions that provide customers with a seamless connection, linking domestic and international services - such as customs brokerage, cold storage, domestic and international transportation.

Our nationwide strategic network of cold storage and international distribution operations in special logistics parks across China, Asia, Europe & North America will manage all your logistics needs, allowing you to focus on what is most important to you: your business.

Export Distribution

OOCL Cold Chain Logistics offers distribution-center services at various key reefer hubs and tailor-made supply-chain solutions to provide direct distribution to final customers or stores overseas. Services also include FCA factory services, inventory management and distribution services.

Import Distribution

We also offer inbound forwarding and distribution services to most destinations in China. Services include inbound cargo tracking from port of discharge to final-destination delivery, delivery order exchange from carrier, customs clearance, bonded and non-bonded warehousing and transportation to final destination.

We also offer China distribution hub services for your intra-Asia shipments.

OOCL Cold Chain LCL Services for Your Less-than-Container Load

At OOCL Cold Chain Logistics, our Less-than-Container-Load (LCL) service always offers cost-effective logistics solutions with reliable and efficient global shipping networks to reduce the cost of expensive airfreight.

Wide Network Coverage

- We offer direct and multi-modal connections in all major Asian-based ports as well as many destinations in North America and Europe.

Fixed-day Weekly Sailing & Reliable Transit Times

- We offer weekly sailings with reliable, fixed-day cut-off times using our own fleet.

Advanced Information Technology

- Our shipment-tracking services provide customers with a cargo-visibility pipeline. Customers can keep track of their cargo movements anytime and anywhere.

Improved Cost Efficiency

- OOCL Cold Chain Logistics can accommodate a broad variety of loose freight in various forms and packages; ensuring that your LCL cargo will always arrive at your desired destination - with the most efficient services - and on time.

Total Logistics Solution Provider

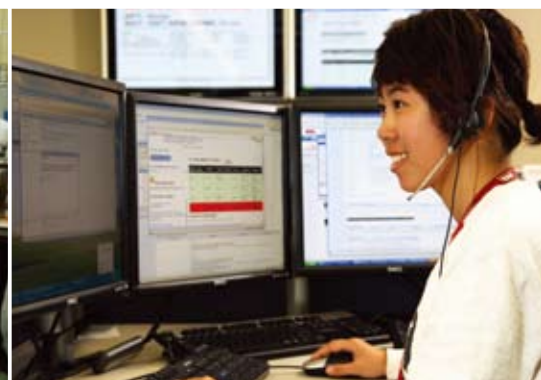

- As a world-class logistics service provider, OOCL Cold Chain Logistics provides our customers with comprehensive, customized, valued-added services as well as one of the finest ocean-freight services in the world. We offer Custom House brokerage, door delivery, packaging and purchase order management - all at competitive rates.

e-business suites provide total visibility and control 24/7

- ReeferPodium has a broad spectrum of value-creating functions for suppliers. These include customized product catalogs and price quotations for individual buyers; a multi-level hierarchy profile that clearly indicates the grade, value and packaging of products, and order management functions for efficient operation.
- Buyers prosper with total supply-chain visibility; from production to pre-shipment processes and cargo loading up to transport and delivery to their doorstep.
- ReeferPodium will connect you to overseas buyers anytime and anyplace.
- OOCL Logistics' InventoryPodium provides an end-to-end view of global inventory throughout the supply chain on a real-time basis, enabling you to make informed decisions about orders, transport modes, product allocation and inventory repositioning.
- Users can query their warehouse inventory by warehouse, SKU, purchase order number, gate-in, or other customer-defined criteria – helping you manage your supply chain more efficiently and reduce costs.

Benefits and features

- Total supply-chain visibility
- Exception management
- Analytical reports on trade history for sales planning
- KPI (key performance indicator) reports to evaluate vendor performance and cost structure
- Multilingual: Chinese, English, Thai, Japanese, and more.
