4. The completed original Annex VII form will be retained by us or our representative, and made available to OOCL or any other regulatory authority within 24 hours of the request, in electronic format
5. An Annex VII form will be completed for every container loaded, not just every multi-container shipment as defined by the regulatory authorities
6. It will be our decision to place a copy of the Annex VII form inside each container, although there is no OOCL requirement for us to do so
7. No changes of Destination will be permitted
8. The products being shipped have been sold to a named party which will appear as Consignee on the OOCL Bill of Lading, and that no change of Consignee is permitted
