Use of Mobile App “HKiPort”

In early 2019, Hong Kong Seaport Alliance (hereinafter “HKSPA”) was established, aiming to deliver more efficient service offerings to carriers that call Hong Kong, and enhance the overall competitiveness of the Port of Hong Kong across the region. HKSPA’s joint operation has come into effect from April 2019.

During April – May, rearrangement of berthing location will take place for numerous services to achieve optimal utilization of the overall berth resources. To avoid any transportation delay, you are strongly recommended to make good use of the mobile app “HKiPort” to check the most updated and correct vessel berth location before coming to terminal for container delivery or pick up.
