**Re: OOCL LATE MANIFESTS DUE TO BOC E2M DOWNTIME WILL UNDERGO
"DIRECT VALIDATE" PROCEDURE**

Dear Valued Customers,

As a result of Philippine Customs E2M system downtime last August 02 - August 04, 2012; two of OOCL manifests were not registered prior to E2M cut-off.

All the Master Bill of Ladings for both manifests will undergo the procedure of "Direct Validate" within the day. Details are as follows:

VESSEL NAME	REGISTRY NUMBER	PORT OF DISCHARGE
M/V OOCL TAICHUNG 200 W	OPI0062-12	MANILA NORTH HARBOR
M/V LARENTIA 046S	OPI0061-12	MANILA SOUTH HARBOR

All NVOCCs are suggested to directly coordinate with their respective Value Added Service Providers (VASP) for the direct validation of their House Bill of Ladings. The Direct Validate procedure is stipulated in Customs Memorandum Order 37-2009 (Submission of Electronic Manifest Through VASP System).

Until today, the E2M system still fluctuates which slows down the Direct Validate processing.

Thank you for your understanding and apologies for any inconvenience caused.

Should you have any more questions, please do not hesitate to call any of our Customer Service Representatives at 554-8000.

Yours faithfully,

Customer Service Department
