

A New Level of Access to Information on your Cargo.

Enjoy the benefits of our advanced transport management systems, with secure web access via your own unique log-on to:

- Real time tracking of vehicles within the UK, updated every 2 minutes, to monitor your consignment any time – day or night.
- Electronic Proof of Deliveries.
- On time performance data.
- Future and historic work patterns.
- Instant logged communication on revised ETAs from driver to customer and load point.

With our modern, environmentally friendly vehicles, extensive rail network and advanced operational systems, you can trust OOCL to provide a high quality and cost-effective transportation service.

Our Resources

With over a hundred modern, reliable vehicles in addition to rail links, we provide a flexible and effective solution to all of your transportation requirements.

We offer:

- Dedicated reefer vehicles
- ADR drivers and wagons
- Tipper chassis
- Drop and swap capability
- Ability to handle high volume consignments and abnormal loads

The OOCL Team

Our team of experienced, professionally qualified operators are trained to the highest level in the industry.

We aim to:

- Provide high on time performance.
- Give transparency in our operation.
- Adapt quickly to a dynamic environment.
- Provide high quality customer service.
