OOCL
We take it personally

Dear Valued Customer,

Thank you for your interest in our newsletter.

We hope you find our most recent edition informative and please contact OOCL for your ocean transportation needs.

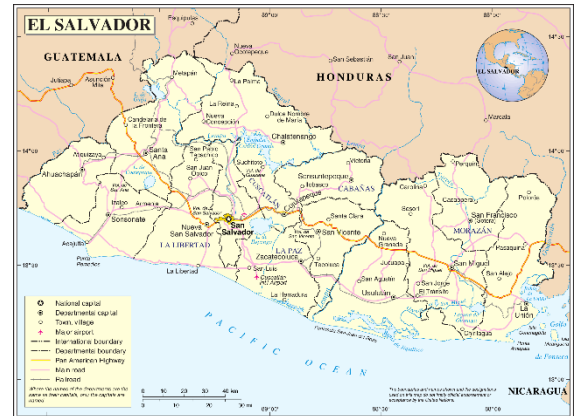

OOCL
We take it personally.

OOCL Agents in El Salvador

As we continue to expand our presence in Latin America, OOCL is pleased to announce that we have new agents—Remarsa—in El Salvador. With over 50 years of

industry experience, Remarsa, part of Grupo Marítimo, together with OOCL will provide you with quality services.

Their mission statement is aligned with OOCL's where they are committed to meeting customer's needs through innovation, technology, and personalized service.

We have recently launched our service the Mexico- Central America Express (MCX), which links to the TLP1, TLP2 and TLP3 vessels at Manzanillo, MX for connection to Asia and South America. Services to Acajutla, El Salvador will begin within the next four weeks.

For more information about Latin America services, please contact your local sales representative.

Prevention and Control of Solid Waste Imports into China

The government of the People's Republic of China has recently adopted a new legislation concerning the Prevention and Control of Solid Waste Pollution in China, whereby all solid waste including waste paper, waste plastics, waste metals, waste chemicals, amongst others are prohibited from importation into China in order to achieve zero import of solid waste by the end of 2020.

To comply with the legislation, **effective today, October 16, 2020 (onboard date)** OOCL shall cease cargo acceptance of all solid waste related materials into China.

A Penalty of CNY500,000 to CNY5,000,000 shall be imposed for violations and strict requirement for import solid waste to be returned to its place of origin at the expense of cargo, including cost of disposal if any.

OOCL's Core Values

People, People, People

As a successful corporation OOCL understands that its continued success and growth depends upon the skills, dedication and teamwork of its employees. People are our greatest asset, and this is why People, People, People is the first core value.

Customer Focus

OOCL prides itself on its focus on the customer – our partner. We believe in long-term, mutually beneficial relationships with our customers and create value through collaboration to enhance customer competitiveness. We Take It Personally for our customers – going beyond normal job responsibilities to serve our customers both internally and externally.

Excellence Through Quality

We embrace continual improvement. Striving to do the right things right the first time, we adopt quality tools to pursue performance excellence.

We strive for innovation. We challenge our processes, think beyond boundaries and look for innovative ways to create value for our customers.

Community Responsibility

Aware that our communities contribute to our success, OOCL embraces Community Responsibility as one of our core values.

We maintain high safety standards and demonstrate our concern for the environment.

We embrace an ethically-sound code of conduct.

OOCL

WE ARE HERE FOR YOU!

OOCL
We take it personally

Safety and Container Inspection Policy

About the program: Last year, OOCL launched a container inspection program to ensure safety, compliance on shore and at sea. This was accomplished by additional verification before loading utilizing a random inspection process on general cargo and potential dangerous goods (DG) cargo.

Responsible parties: It is the responsibility of all stakeholders in the carriage of goods to ensure all hazardous cargo are properly declared and handled according to the IMDG regulations. Customers must provide OOCL with accurate and complete cargo information.

Container Safety: In addition, confirm all cargo is properly classified, packed, stowed, and documented to ensure safe transportation in accordance with applicable regulation.

For more information on securing your cargo, [this link](#) contains a guide from the World Shipping Council and provides helpful information to ensure your cargo is properly loaded.

Documentation: Furthermore, there may be instances where we may request more information or documents for verification purposes.

Cargo Misdeclaration: Any discrepancies between the documents and what is physically inside the container will result in with a Cargo Misdeclaration Fee. Depending on the outcome of the inspections and any deficiencies

found, there may be the need for the shipment to be put on hold and for the cargo to be re-worked. Any charges or penalties that are associated with the misdeclaration will be for the account of cargo.

In the News: Port of Montreal welcomes OOCL St. Lawrence

On October 8, 2020, the Port of Montreal welcomed the maiden call of the OOCL St. Lawrence for the first time. With an overall length of 294.51 meters, a beam of 32.3 meters and a maximum capacity of 5,047 twenty-foot equivalent units (TEUs), this Panamax vessel is one of the largest container ships to call at the Port of Montreal, which can welcome post-Panamax vessels carrying up to 6,500 TEUs.

“The Port of Montreal is pleased to support the growth of its partners and clients together with the regional and national economy. The arrival in Montreal of the OOCL St. Lawrence attests both to the strength of our long-standing business relationship with OOCL, and to the natural progression of our services toward a future that we envisage with confidence,” said Sylvie Vachon, President and CEO of the Montreal Port Authority.

OOCL Captain receives plaque from the Port of Montreal during the maiden call of OOCL St. Lawrence.

“OOCL has a long history in facilitating trade in the St. Lawrence Seaway, being the first container carrier calling the Port of Montreal 50 years ago. The selection in the name of our latest vessel, the *OOCL St. Lawrence*, shows our long-term commitment and confidence in the future of this vibrant Canadian gateway,” said Grace Liang, President of OOCL Canada.

Liang continued to explain about the OOCL St. Lawrence vessel that “compared to her predecessor, the increased capacity from her deployment will be important to our strategic plans for growth. Being ice-strengthened to meet the harsh winter sailing conditions in the Trans-Atlantic service, the *OOCL St. Lawrence* will be a welcome addition to supporting year-round trade in this region for many years to come.”
