## OOCL receives Corporate Environmental Leadership Gold Award

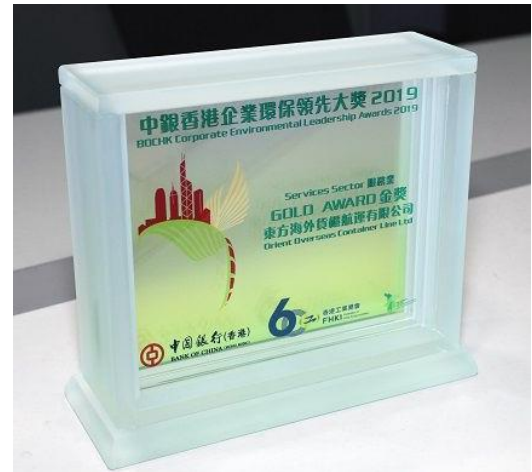

OOCL, a leading international transportation and logistics service provider, once again received the Gold Award (in the service industry sector) at the 2019 BOCHK Corporate Environmental Leadership Awards ceremony held at the head office of Federation of Hong Kong Industries (FHKI) on October 5, 2020.

This prestigious awards program recognizes OOCL's continuous commitment to promoting environmental and low-carbon best practices in the service industry sector in Hong Kong and the Pan Pearl River Delta region.

With over 750 organizations participating in the program, OOCL stood out from the competition this year.

OOCL's Director of Trade, Mr. Teddy Fung, received the award and said: "As a global carrier with our roots deep in Hong Kong, OOCL is very pleased to be acknowledged for our commitment and performance in sustainable development by receiving this remarkable award. OOCL has consistently been engaged with important environmental issues related to our industry, including marine biodiversity and climate change. We will continue to devote our efforts to exploring more opportunities in working together with our stakeholders to tackle tough environmental challenges we face ahead."

## OOCL awarded the 2020 Information Visionary by IDC Hong Kong

OOCL proudly received the 2020 Information Visionary award at this year's IDC Digital Transformation Awards (DX Awards) that recognized the new advancements made to MyOOCLReefer solution. Organized by IDC Hong Kong, the DX Awards puts the spotlight on outstanding organizations that have made important breakthroughs in their digital transformation journey.

First launched in 2017, the IDC DX Awards received over 1,200 nominations across different participating countries and regions this year. In the seven award categories, each recognizing achievements in different aspects, the Information Visionary award pays tribute to an organization that excels in leveraging data and information to enhance its business decision-making capabilities and improve overall competitive advantage.
