OOCL Named “Best Shipping Line – Intra Asia” at the 2026 AFLAS Awards

OOCL is pleased to announce that we have been named “Best Shipping Line – Intra Asia” at the 2026 Asian Freight, Logistics and Supply Chain (AFLAS) Awards held in Shanghai last month, marking the third time the company has received this prestigious recognition.

The “Best Shipping Line – Intra-Asia” award recognizes OOCL's outperformance in the region for its customers-oriented services and solutions, comprehensive service network, competitive freight rates and effective and easy-to use IT systems.

Winners of the AFLAS awards are selected through a three-step process that incorporates industry opinions, nomination criteria and technical evaluation conducted by Asia Cargo News. Winners are determined from over 15,000 Asia Cargo News readers and e-news subscribers, making the results a true reflection of service user opinion.

Shipment Details Available through Control Tower

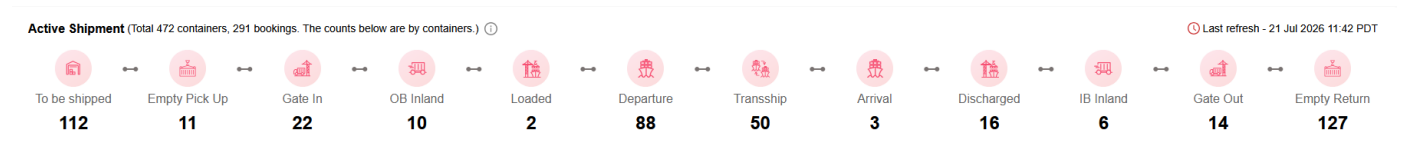

My OOCL Center (MOC) has officially retired the “Shipment Details” feature and all of your important shipment information can now be accessed via the Control Tower within MOC.

The Control Tower Features

- **Active Shipment:** Provides the journey of all active shipments (excluding cancelled and declined) up to 30 days after the empty is returned.
- **Track & Monitor:** This houses all your Shipment Detail information for both inbound and outbound; such as container details, rail information, last free date, pick-up number, etc.
 - **How to Access it:** Getting started is simple! From the dashboard, use the Tracking feature in the Control Tower by entering your booking, bill of lading, container, or reference number, then click “Tracking” to quickly access your shipment details.
- **Watchlist:** It has replaced the hot shipment features and allows you to easily track a shipment that requires more attention.
- **Reminder List:** It assists you to prioritize by customizing the reminder settings for important milestones.
- **Documentation:** You can view the document status, BL status and cutoff dates.

Contact Us

To learn more about what the Control Tower offers, please contact the e-commerce team at OOCLCOM@oocl.com.

OOCL Carbon Calculator

OOCL remains committed to helping our customers achieve the lowest carbon footprint with their end-to-end supply chain. With OOCL's Carbon Calculator, customers have the ability to measure carbon emissions for every single shipment, anytime and anywhere.

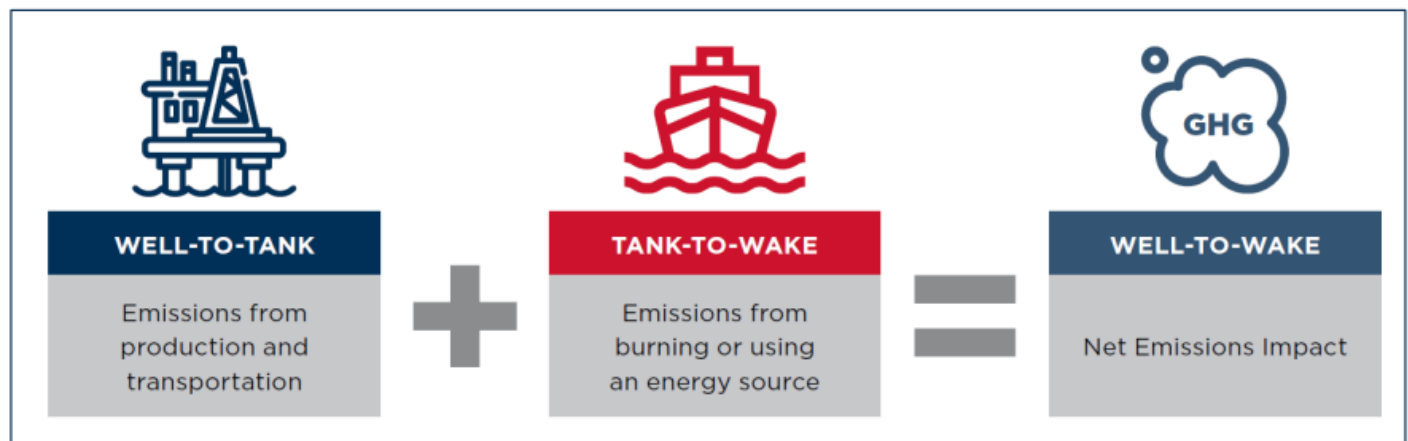

OOCL Carbon Calculator

The online calculator is based on certain assumptions, including the data entered into the tool and OOCL's vessel fleet carbon dioxide equivalent (CO₂e) emissions data, using Clean Cargo Methods. The door emission figure uses the average distance from the center of the city.

The options of Tank-to-Wake (TTW) and Well-to-Wake (WTW) CO₂e emissions can now be found within the Shipment Details feature of My OOCL Center (MOC), as well as in OOCL booking acknowledgments.

For more information on OOCL's online Carbon Calculator, please visit our [site](#).

Long Beach → Shanghai

B/L View and Print Feature Integrated with SmartDoc

The “B/L View and Print” capabilities is now integrated with SmartDoc, enabling you to submit your SI and access B/L documents from one convenient location. The former “B/L View and Print” feature within My OOCL Center (MOC) has officially been retired per the alert below.

Important Update

The “B/L View and Print” function in My OOCL Center (MOC) has been superseded by “SmartDoc”.

These capabilities are now available in **SmartDoc**, enabling you to view and print Original Bills of Lading (OBL).

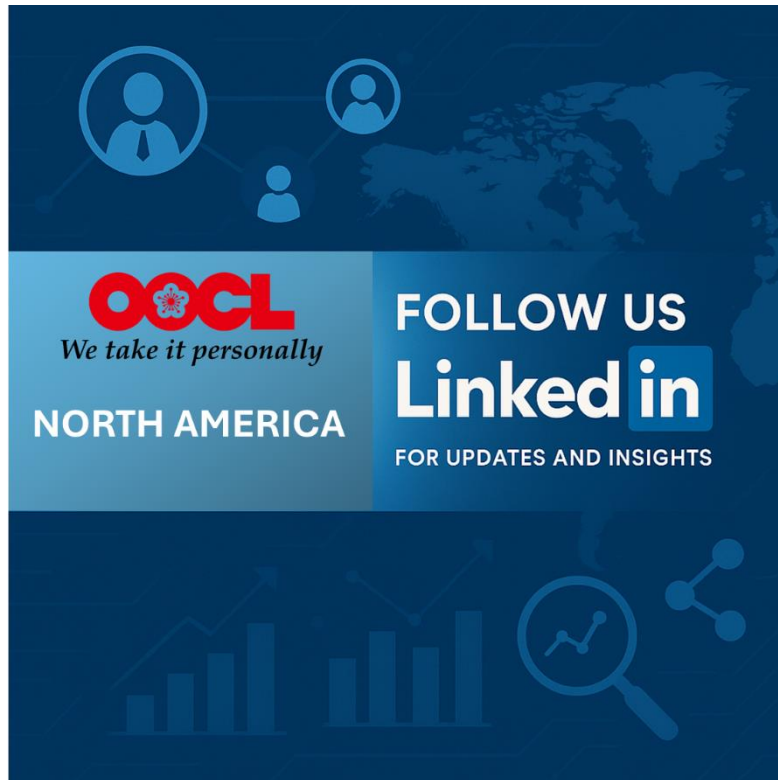

Through SmartDoc, you can also accept or request Proforma B/Ls, request additional prints, and review history logs.

If you have not previously used B/L View and Print, please register for B/L printing by selecting the “Request B/L Printing” link in SmartDoc.

For more information on the latest features within SmartDoc, please contact the e-commerce team at OOCLCOM@oocl.com.
